CASKET MOVING EQUIPMENT

Church Truck

Constructed of anodized aluminum tubing.
Can safely move and display any size casket.
Design allows for four locked positions.
Rate capacity of 800 lbs.
Best Value on the market.

Available: Bronze, Gold and Silver

Casket Cart

Ideal for use in churches, synagogues, funeral homes and mortuaries. This cart is constructed of sturdy anodized aluminum tubing for a long lasting like-new appearance. Large six-inch wheels roll with ease over rough surfaces. Six rubber tips will hold casket solidly in place. Maximum capacity 700 lbs. Easy assembly.

Size: 48" L x 19 1/2" W x 21" H

Weight: 22 lbs.

Casket Carriage

This easy-rolling unit relieves the pallbearers from the difficult burden of carrying the heavy casket from the chapel to the hearse and from the hearse to the grave site.

Size: 25" H x 25" W x 6' L

Weight: 128 lbs.

Removable name plates: 6 1/2" x 2 1/2" 5 lbs.

1 piece wrap around drape available

Pall Bearer

Casket Carriage

This is designed and constructed with traditional quality throughout, is as rugged as a tank, yet smooth running as a fine watch. It is built to last and will keep it's new look and provide care-free service for years. Heavy-duty frame of 1 1/2" - 14-gauge welded steel tubing with extra-large, full pneumatic wheels.

Size: 6' Long x 30" wide x 19" height

Tires are 4" x 10" x 2 Ply

Casket Placer

Turning a crank gently lowers the casket onto the lowering device straps. In addition to easing the load for pallbearers, this fine device eliminates the hazards of stepping too close to the open grave, stumbling over wooden supports, etc. It also prevents the casket from moving or being released until the appropriate time. This assures the safety of your employees and the families they serve.

- Features:
- Chrome-Plated Rails
 - Solid Cast Aluminum corner posts
 - Fully adjustable
 - Ball Bearing & Gear System
 - Stops at Each End
 - Ten Thick Rubber Rollers
