

# HOLLAND STAINLESS STEEL LOT MARKERS

- The most popular Lot Marker used today.
- High quality, durable stainless steel disk.
- Heavy-duty, threaded, 10" Zinc coated carriage bolt (Galvanized also available).
- Number them yourself with the Holland Marking Machine, or we can number them for you.
- Find sunken or snow covered markers easily with a metal detector.
- Save time and money with easy and accurate layout and installation.
- Disk and bolt are virtually indestructible and maintenance free.
- Packed in boxes of 120. Other quantities also available.

Available: 3 1/2" and 4 1/2" inch Diameter.

Markers are packed in numerical order for easy and accurate layout.

## Hand Numbering Machine

Consists of heavy duty, high carbon steel anvil, and pad with ball-bearing engine-divided stop, to move exact spacing of numerals.

Complete unit consists of numbering kit (packed in a tool box), a set of heavy duty high quality numeral dies and an engineer's 3 lb. hammer.

Numbering of these stainless steel markers is an excellent "fill in" job for regular employees.
